What leadership should know

1. Cost wins are landing: serverless SQL is cutting DBU spend 11%, and the P-SKU exit keeps $48K/year in reach.
2. AI is reaching users: 32 of 45 ops managers on Spotter, and Copilot hits 88% accuracy on test questions.
3. Decision needed by Oct 30 on Fabric F64 capacity; CISO help needed to unblock the Claude Code pilot.
